

Process catalogue 2010

CUTHBERTSON LAIRD GROUP

A range of Process Control equipment available from Cuthbertson Laird Group. We are authorised distributors for Druck, Fluke Electronic & Cropico Instruments.

This pdf catalogue contains only a small sample of the test equipment we are able to supply. Please see our website for a more comprehensive list.

www.cuthbertsonlaird.co.uk

Cropico Process Control

A range of highly accurate digital thermometers and thermocouples.

Druck Pressure & Process

Pressure, Multi-Function, Dry Block & IS Calibrators, Druck 800 Series and Pressure Transmitters

Fluke Process Calibration

Loop, Pressure & Multi-Function calibrators plus Modules & Pumps also available in Ex versions.

WELCOME TO OUR INTERACTIVE PROCESS CONTROL CATALOGUE

The Cuthbertson Laird Group have produced this interactive catalogue to allow you to view a selection of the products we have available for Process Calibration from the convenience of your desktop.

HOW TO USE THIS CATALOGUE

If you wish to view a particular instrument in greater detail, simply click on the 'View On-Line' text below the instrument. You will of course need to have an internet connection to use this feature. Clicking this link will take you to the instruments detail page on our website (www.cuthbertsonlaird.co.uk) from where you can view and download datasheets etc.

CUTHBERTSON LAIRD GROUP - THREE OFFICES - THREE COUNTRIES

Established in 1980, we now have offices in Hamilton, Leeds and Newtownabbey (Belfast).

Cuthbertson Laird Group offices contact details:

Hamilton: Telephone +44 (0) 1698 829711. Fax +44 (0) 1698 828363. Click to [Email Hamilton](#).

Leeds: Telephone +44 (0) 113 2351356. Fax +44 (0) 113 2351161. Click to [Email Leeds](#)

Newtownabbey: Telephone +44 (0) 2890 830302. Fax +44 (0) 2890 838866. Click to [Email Belfast](#)

Clicking on the email link will open up your default email program with the address and subject fields already populated.

Process Control

CUTHBERTSON LAIRD GROUP

Cropico

Cropico DP6

Measure and simulate the outputs from the 10 most popular thermocouple types.

[View On-Line](#)

Cropico 3000

Portable high accuracy temperature indicator with full instrument controls.

[View On-Line](#)

Druck AMC

Combines an advanced multi-function calibrator with world-class pressure measurement and generation

Druck DPI620 AMC

Advanced Modular Calibration System and HART Communication System.

[View On-Line](#)

Druck PM620 Pressure Module

Fully interchangeable Pressure Modules with no need for set-up or calibration.

[View On-Line](#)

Druck MC620 Module Carrier

Attaches to the head of the DPI620 and can be fitted with any PM620 module.

[View On-Line](#)

Druck PV621 Pressure Station

A pneumatic pressure generator for pressures 95% vacuum to 20 bar (300 psi).

[View On-Line](#)

Druck PV622 Pressure Station

A pneumatic pressure generator for pressures 95% vacuum to 100 bar (1500 psi).

[View On-Line](#)

Druck PV623 Pressure Station

Hydraulic pressure station 1000 bar (15000 psi). Provides stable pressure within 1 min.

[View On-Line](#)

PV621 IS Pressure Station

ATEX approved Pressure Station for stand-alone use in hazardous areas

[View On-Line](#)

Process Control

Druck Pressure

Portable pressure calibrators are the culmination of many years of field experience.

Druck DPI610

Pressure calibrator that combines practical design with state-of-the-art performance.
[View On-Line](#)

Druck DPI615/PC

Pneumatic Calibrator with data storage and RS 232 interface.
[View On-Line](#)

Druck DPI615/HC

Portable hydraulic calibrator designed for ease of use.
[View On-Line](#)

Druck DPI615/LP

Low Pressure Calibrator which meets a wide range of application needs.
[View On-Line](#)

Druck DPI615/PC/IS

Pneumatic calibrator supplied certified for use in hazardous areas.
[View On-Line](#)

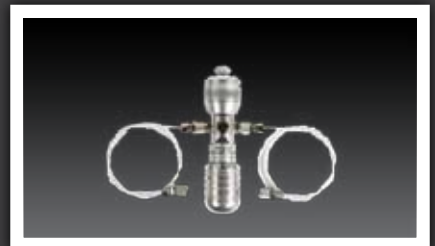

Druck PV411A-P

Multi-function pressure generator replaces four conventional hand pumps.
[View On-Line](#)

Druck PV411A-HP

Generates vacuum, gas and hydraulic pressures from a few mbar up to 700 bar.
[View On-Line](#)

Druck PV210

Low Pressure Pneumatic Hand Pump generates pressures in excess of 3000 mbar.
[View On-Line](#)

Druck PV211-P

Lightweight, easy to use and generates pneumatic pressures in excess of 25 bar.
[View On-Line](#)

Druck PV212-HP

Hydraulic High Pressure Hand Pump generates pressure up to 1000 bar.
[View On-Line](#)

Druck Intecal Software

Intecal supports Druck pressure, temperature and electrical equipment.
[View On-Line](#)

Process Control

Fluke Pressure

Fluke Pressure Calibrators deliver outstanding performance, durability and reliability.

Fluke 717 Pressure Calibrator

Pressure measurement to 700 bar (with Fluke-700Pxx Pressure Modules).

[View On-Line](#)

Fluke 718 Pressure Calibrator

a total pressure calibration solution for transmitters, gauges and switches..

[View On-Line](#)

Fluke 719 Pressure Calibrator

With a built-in electric pump, the 719 provides one handed pressure calibration.

[View On-Line](#)

Fluke 718Ex Pressure Calibrator

A powerful intrinsically safe, self contained pressure calibrator.

[View On-Line](#)

Fluke 700 Series Modules

Measure pressure using an internal micro-processor. 29 different modules available.

[View On-Line](#)

Fluke 700HTP-1 Test Pump

Hydraulic test pump designed to generate pressures up to 10,000 psi/700 bar.

[View On-Line](#)

Fluke 700LTP Test Pump

Low pressure test pump designed to generate either vacuum or pressure.

[View On-Line](#)

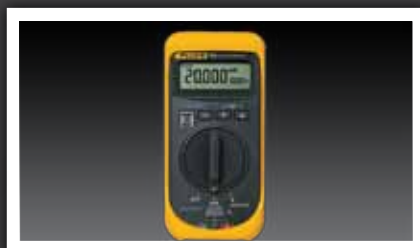

Fluke PTP-1 Test Pump

Generates either vacuum to -11.6 psi/-0.8 bar or pressure to 600 psi/40 bar.

[View On-Line](#)

Fluke Loop & Process Multimeters

Fluke 705 Loop Calibrator

A feature-rich solution to loop calibration, maintenance and repair.

[View On-Line](#)

Fluke 707 Loop Calibrator

A fast, one-handed tool for loop checks.

Just click to calibrate.

[View On-Line](#)

Process Control

Fluke 707 Ex

An IS loop calibrator for use in explosion endangered areas.

[View On-Line](#)

Fluke 787 Process Meter

Combines a DMM and a Loop Calibrator in one rugged, handheld tool.

[View On-Line](#)

Fluke 789 Process Meter

Combining the two most commonly used tools by instrumentation technicians.

[View On-Line](#)

Fluke 771 Process Clamp Meter

Measure 4 - 20mA output signals from transmitters without breaking the loop.

[View On-Line](#)

Fluke 772 Process Clamp Meter

Troubleshoot and repair 4-20 mA loops without breaking the loop.

[View On-Line](#)

Fluke 773 mA Clamp Meter

Don't break the loop on 4-20 mA signal measurements and save time.

[View On-Line](#)

Druck 800 Series

DPI 800 Pressure Indicator

Pressure ranges from 70 mbar to 200 bar including vacuum options

[View On-Line](#)

DPI802 Pressure Loop Calibrator

Pressure and mA measurement for transmitter and loop maintenance.

[View On-Line](#)

DPI 811 RTD Calibrator

The ideal tool for checking probes, indicators, recorders and controllers.

[View On-Line](#)

DPI 812 RTD Loop Calibrator

RTD output and mA measurement for transmitter/loop maintenance.

[View On-Line](#)

DPI821 Thermocouple Calibrator

The DPI821 Thermocouple Calibrator measures or simulates sensors.

[View On-Line](#)

[Sales](#) » [Hire](#) » [Calibration](#) » [Repair](#) » [Training](#)

Process Control

DPI822 Thermo/Loop Calibrator
 T/C output and mA measurement for transmitter and loop measurement.
[View On-Line](#)

DPI880 Multi-function Calibrator
 An ultra compact and simple to use tool for testing, configuring and calibrating.
[View On-Line](#)

Druck IDOS Pressure Modules
 Universal Pressure Modules are available in ranges from 25 mbar to 700 bar.
[View On-Line](#)

Druck Miscellaneous

Druck DPI 705
 Digital Pressure Indicator. With many features for maintenance and troubleshooting.
[View On-Line](#)

Druck DPI 705 IS
 Designed to determine moisture in oil and provide highly accurate results on-site.
[View On-Line](#)

Druck UPS III Loop Calibrator
 An essential tool for loop testing, instrument maintenance and valve set-up.
[View On-Line](#)

Druck UPS III IS
 An essential tool for loop testing, instrument maintenance and valve set-up.
[View On-Line](#)

Druck DPI 104
 A micro-processor controlled, network capable digital pressure gauge.
[View On-Line](#)

Druck DPI 104 IS
 IS version of the DPI 104 digital pressure gauge.
[View On-Line](#)

Druck TRX II IS
 A highly accurate and easy to use Intrinsically Safe documenting calibrator.
[View On-Line](#)

Druck Dry Block Calibrators
 Includes Temperature Source and Temperature Calibrator versions.
[View On-Line](#)

Process Control

Fluke

Multi-Function & Hart Calibrators

Fluke 725 MF Process Calibrator

Measure and source mA, volts, temperature, frequency, ohms, and pressure.

[View On-Line](#)

Fluke 725 IS Process Calibrator

Designed to provide calibration power, accuracy and broad workload coverage.

[View On-line](#)

Fluke 726 MF Process Calibrator

Broad workload coverage, calibration power and unsurpassed accuracy.

[View On-Line](#)

Fluke 741B Process Calibrator

A complete documenting calibrator that does the work of several tools.

[View On-Line](#)

Fluke 743B Process Calibrator

Has all the capabilities of the Fluke 741B plus a PC interface.

[View On-Line](#)

Fluke 744 Process Calibrator

All the capabilities of the 743B, plus the ability to calibrate, maintain & troubleshoot.

[View On-Line](#)
